

SELECTION OF MEMBERS FOR TWO STATE PARLIAMENTARY TEAMS

The first place team will be one of the two teams representing the state at the National Leadership Conference.

Team two will be comprised of competitors with the top five written test scores who are not on the first place team. Where ties exist, the order in which the participants finish will be used to identify the five highest positions. In the event a tie would still exist, a participant from a team with the highest final ranking would be given preference.

The individual with the highest written test score will have the option of serving as the chair. If he/she declines, the position of chair will be determined by the state adviser. Should those designated as the team members on the second team become unable to attend, the state adviser will select a replacement, preferably from the participants with the next highest scores on the written test.

If three or more persons would qualify for the second state team, all of whom had participated at a national conference previously, only two could return to participate in the national parliamentary event. The two members would be chosen by taking the two with the highest scores on the test at the state conference. Should another procedure be necessary, the ranks of the team from which the eligible persons come would be used. The two from the team or teams with the highest rank would be chosen.

The state parliamentary team member positions will be assigned in descending order beginning with chair. The agenda, minutes, treasurer's report, and team positions will be prepared by the chair of the team and his or her adviser.
